## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-23, drawn to a compartment seal, classified in class 277, subclass 628.
- II. Claims 24-26, drawn to a method for a compartment seal, classified in class 29, subclass 888.01.

The inventions are distinct, each from the other because of the following reasons:

Inventions i and II are related as process of making and product made.

The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made by a materially different method. For example instead of cutting the seal element, the seal could be formed with frangible line portions and then broken along the frangible lines.
